Hisaab — Quick start

Accounts, stock, GST, TDS and payroll for Indian businesses. Your books stay on your PC. No account. Free.

1 · Install (Windows 10 / 11, 64-bit)

1. Download **Hisaab_1.0.2_x64-setup.exe** (the newest) from github.com/myarena-mk07/hisaab-releases/releases.
2. Windows can show “Windows protected your PC”: click **More info**, then **Run anyway**.
3. At the first start, choose an empty folder, an import, or the demo company. The books are in **Documents\Hisaab\Data**.

2 · Switch from Tally

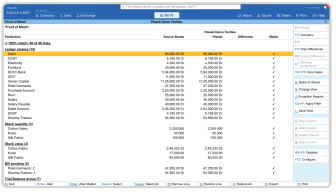

1. In TallyPrime, one time: **F1 › Settings › Connectivity**: acts as **Both**, port **9000**, Ctrl+A. Restart TallyPrime, open the company.
2. In Hisaab: **Alt+O › Switch from Tally**. Hisaab finds Tally on this PC or the office network.
3. **Space** ticks a company, **Enter** switches. Check the **Proof of Match**: every line ✓.
4. Later: **S** Sync again (only the changes). No network: **F** and the XML files of Tally (Alt+E there).

3 · Every day

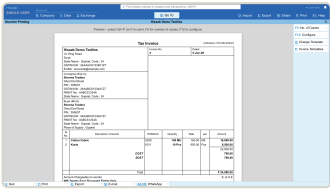

1. **V** then F8 Sales · F9 Purchase · F6 Receipt · F5 Payment · F4 Contra · F7 Journal.
2. **Ctrl+P** prints, **E** PDF, **M** e-mail, **Alt+W** WhatsApp (in the print preview).
3. Reports: **K** Day Book · **B** Balance Sheet · **P** Profit & Loss · **S** Stock · **Enter** opens the next level.
4. Backup: every day by itself (**Alt+Y › Backup & Restore › Daily Backup**); **F9** there sets up a copy outside this PC. Language: **Ctrl+K**.

The ten keys to know
